AGILE

What do you know?
Scrum? Kanban?
Same or different?

1. Watch the video and tell what is common between Scrum and Kanban.

Kanban vs Scrum | Difference between Kanban and Scrum

2. Decide if sentences are TRUE or FALSE

1. In Scrum, the roles of the team are not clearly defined.
2. In Scrum, deliverables are divided into Sprints.
3. Kanban and Scrum use the "Push" technique.
4. Kanban allows the team to pull new tasks only once the previous task is completed.
5. Scrum is more flexible as compared to Kanban.
6. Scrum is best for teams with stable priorities.

Watch the video one more time to check your answers

3. Daily meeting.

How long do they last? What are the 3 main questions to answer during those meetings? Watch the video to check.

What is the 'Daily Scrum'? -- Scrum Guide

4. What daily meeting questions this person has answered?

"Yesterday I finished testing the main functionality. I had a call with the team."

“I need approval from Tim to push my code to production.”

“I am going to finish writing the Test Plan.”

5. Match the word and definition

a) Deliverables	1. To continue to work or make progress as planned, expected, or desired.
b) Bottleneck	2. product, service, or result that must be completed to finish a project
c) Velocity	3. a specific problem in part of a process, that causes delays to the whole process
d) stay on track	4. Speed

a) -
b)
c)
d)

6. Complete the table with the missing sentences.

a)

+	-	?
I will do this task today	I will not do this task today	Will I do this task today?
	She won’t have a call today.	Will she have a call today?
We will check the requirements after the call		
		Will he complete the Sprint?
	I won’t call my boss	

b)

+	-	?
I am going to finish this task today	I am not going to finish this task today.	Am I going to finish this task today?
	She is not going to fix this issue.	Is she going to fix this issue?
We are going to check the requirements.		
		Are you planning to complete the sprint?
	He is not going to call his team.	

7. Help David prepare for the Daily Standup meeting. Transform his notes into full sentences. See an example.

Yesterday:

Set up a new build process

Investigate Player issues

Start optimizing the navigation and player

Today:

Continue with the player

Take a look at the issue with the Payment system

Blockers

Can not debug the Payment method. Need help

Ex. Yesterday I set up a new build process.

What is David's role?

8. Additional task.

Watch the video. What makes this meeting special?

Effective Meetings | Daily Stand Up Meetings | Website Pipeline

1. Decide if sentences are True or False
