Write down soft and hard skills from the CV.

Hard skills	Soft skills

2. Find soft and hard skills in this CV extract.

- ✓ Excellent interpersonal skills, demonstrated by communicating with clients, colleagues and non-technical professionals on a daily basis.
- ✓ Expert knowledge of a variety of programming languages including Java, Python, C, JavaScript, PHP and SQL.
- ✓ Able to work individually without direct supervision and also as a dedicated member of a technical team whenever required.
- ✓ Outstanding software testing and troubleshooting skills.
- ✓ Knowledgeable of iOS and its architecture.

Hard skills	Soft skills

3. Match the skill to the definition

1. Decision Making	a) the process of two or more people, or companies working together to complete a task or achieve a goal
2. Listening Skills	b) the process of deciding about something important, especially in a group of people or in an organization.
3. Collaboration	c) feeling sure of yourself and your abilities — not in an arrogant way, but in a realistic, secure way.
4. Confidence	d) the process of organizing and planning how to divide your time between different activities.
5. Problem-solving	e) presentation that is given live before an audience.
6. Time management	f) giving your task or responsibility to another person, typically one who is less senior than you.

7. Delegation	g) the process of identifying, assessing, and controlling threats to projects, companies, or team.
8. Risk Management	h) Listening is the ability to accurately receive and interpret messages in the communication process.
9. Public Speaking	i) the act of defining a problem; determining the cause of the problem; identifying, prioritizing, and selecting alternatives for a solution; and implementing a solution.
10. Negotiation	j) skill that allows two or more sides to reach a compromise. These are often soft skills such as communication, persuasion, planning, and cooperation.
